Paper Prototype

Overview: The below diagram describes the relationship between different tasks of our “Hello? Hang Up!” App.

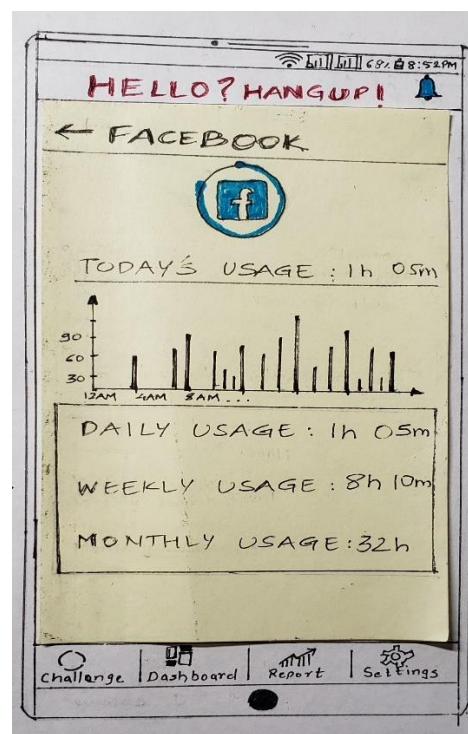

Task 1: Usage Report

1. User clicks on "Report" icon and is provided with "DAILY" usage report.
2. User can also view "WEEKLY" usage report, but user chooses to see daily report for 6th Nov 2019.

3. After selecting daily usage report user sees usage statistics of overused apps and clicks on Facebook to see detailed view.
4. User sees daily usage time spent on Facebook.

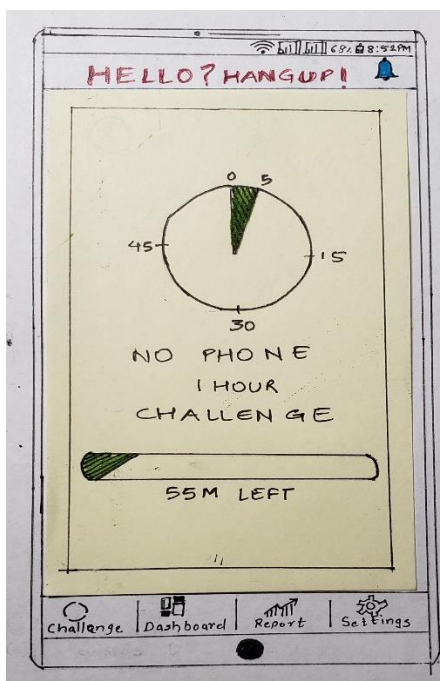

Task 2: Challenges

1. User selects “Challenge” icon and takes “1 HOUR” challenge.
2. User clicks “Start Now” to commence the one-hour challenge.

3. If the challenge is active and the user uses the phone, bottom left screen will show up and the challenge will end. If user, however, closes the phone immediately, the challenge will continue.
4. After successfully completing the goal, user gets a congratulatory message and clicks on “REDEEM” to view different rewards.

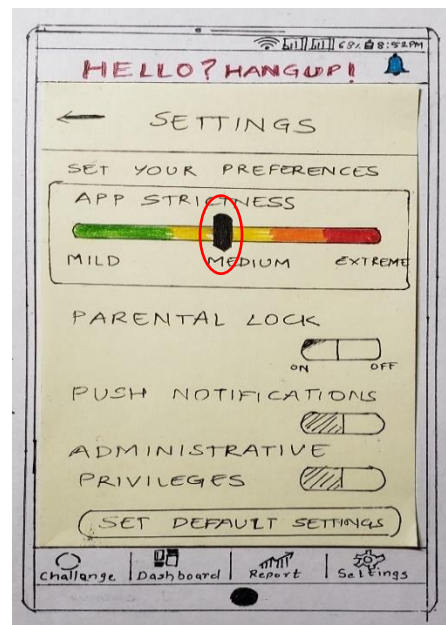

5. User is now navigated to “REWARDS” section and can redeem rewards.

Task 3: Settings

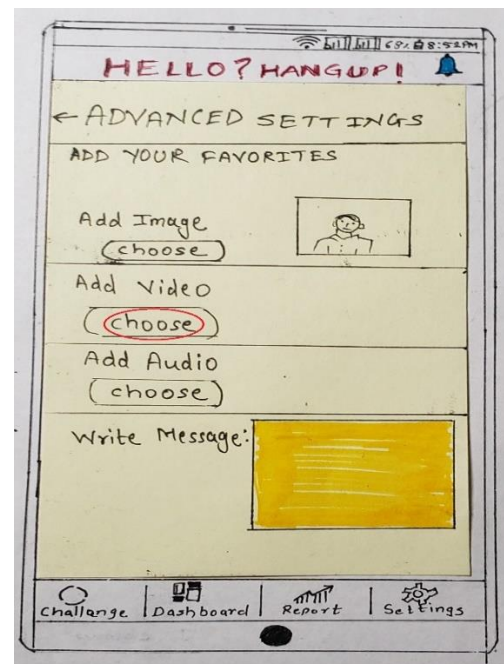

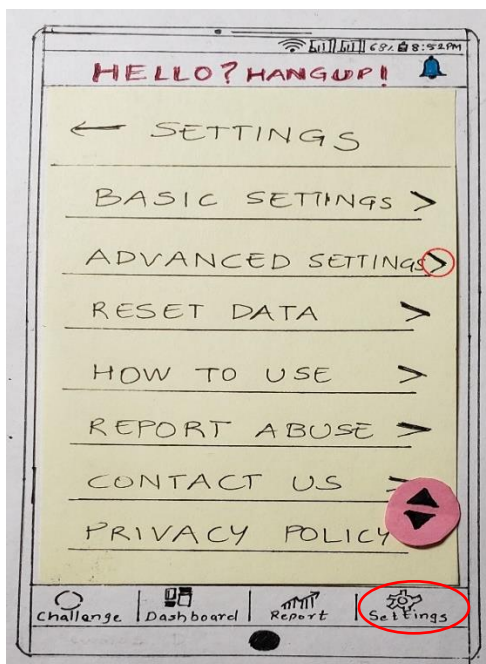

3.1 Basic Settings:

1. User clicks on “SETTINGS” icon and then selects “BASIC SETTINGS” option.
2. User sets “APP STRICTNESS” to “MEDIUM” under “SET YOUR PREFERENCES”.

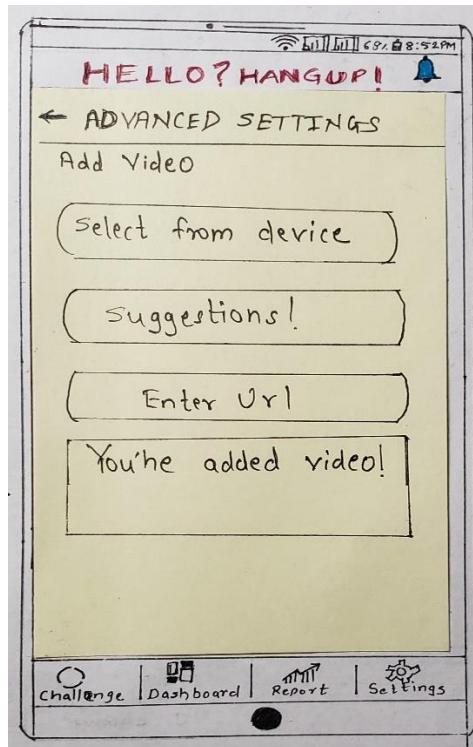

3.2: Advanced Settings:

1. User clicks on “SETTINGS” icon and selects “ADVANCED SETTINGS”.
2. Under “ADVANCED SETTINGS” user can select different motivational media such as Image, Video, Audio and Write Message. User then clicks on “Choose” to add video.

3. If user chooses to add video, he/she can add it using provided options on screen.

Group Members and Roles

Harsh Gupta: Basic Settings screen designs, Report content formatting, Paper Prototype high-level design, Paper prototype workflow.

Amit Kulkarni: Advanced Settings screen design, Report content creation, Paper Prototype low-level design, Paper prototype workflow.
